

MEM 20413 Certificate II in Engineering Pathways

MEM20413 Certificate II In Engineering Pathways; this course requires the learner to complete twelve (12) units, which consists of four (4) core units and eight (8) units. Under this program the following units will be delivered:

Core Units

- MEM13014A Apply principles of occupational health and safety in the work environment
- MEMPE005A Develop a career plan for the engineering and manufacturing industry
- MEMPE006A Undertake basic engineering sustainable work practices

Selected elective units

- MEM18001C Use hand tools
- MEM18002B Use power tools/hand held operations
- MEM16006A Organise and communicate information
- MEMPE001A Use engineering workshop machines
- MEMPE003A Use oxy-acetylene and soldering equipment
- MSAPCI101A Adapt to work in industry
- MEMPE002A Use electric welding machine
- MEMPE007A Pull apart and re-assemble engineering mechanisms
